WEBSITE DEVELOPER

---

Dear Hiring Manager,

I am writing to apply for a Junior Web Developer / WordPress Developer position. I am an intermediate WordPress developer with practical experience building and managing websites, and I am currently growing my skills in modern JavaScript-based web development.

I can handle WordPress projects from start to finish. This includes domain and hosting setup, WordPress installation, theme customisation, and building pixel-perfect designs from Figma using Elementor and Gutenberg. I select plugins based on real project needs and can make eCommerce websites using WooCommerce. With Elementor, I create fully custom, responsive website designs.

I have a good working knowledge of HTML, CSS, and JavaScript. Although I am not a full-stack PHP developer, I am actively learning modern web development using the JavaScript ecosystem, with a focus on the PERN stack (PostgreSQL, Express, React, and Node.js).

I enjoy learning, solving problems, and improving my skills through real projects.

Examples of my work are available at [www.taimoursohail.com](http://www.taimoursohail.com).

I would be happy to discuss how my skills and learning mindset can support your team. You can contact me at [hello@taimoursohail.com](mailto:hello@taimoursohail.com).

Thank you for your time and consideration.

Best regards,

Taimour Bin Sohail

## WEBSITE DEVELOPER

Safari Enclave Sector 36 A Gulzar E Hijri Scheme 33, Karachi  
hello@taimoursohail.com | www.taimoursohail.com

### SUMMARY

I am a Web Developer with experience building conversion-focused websites using WordPress and modern front-end technologies.

I am eager to gain deeper experience in scalable web systems, work with experienced developers, and contribute to real-world projects.

My skill set includes efficient WordPress development and custom-coded solutions, with a strong focus on solving business problems through practical technology.

I am currently expanding my skills in Full Stack JavaScript development using React, Node.js, and PostgreSQL, while learning the fundamentals of Web3.

## PROJECTS

---

### [Building Material Supplier \(E-Commerce\)](#)

Nov 2025 - Nov 2025

This impressive e-commerce project example showcases modern online sales of building materials for MYB Builders Limited, a trusted trade supplier in Birmingham.

### [EPC Lead Generation WordPress Website](#)

Aug 2025 - Aug 2025

I built Survex.co.uk, a fast, lead-focused WordPress site for UK EPC services using a custom lightweight theme with visual builder (ELEMENTOR).

### [Dubai Restaurant Website & Online Ordering System](#)

Jun 2024 - Aug 2025

Designed and later upgraded Kabab Karachi Dubai's website into a responsive platform with integrated online ordering, boosting engagement and driving direct sales.

### [UK Hardware E-commerce Platform](#)

Jan 2024 - Feb 2024

Single handedly built ECO Heat Shop's complete digital ecosystem from custom front and back end development to e-commerce, marketing tools, and full online presence, gaining hands on expertise in launching and scaling a digital business.

### [HVAC Static Website Development](#)

Feb 2024 - Feb 2024

Developed a clean, responsive WordPress site for Al Bukhari (Airtelligent) to establish their online presence and capture leads, solidifying my focus on specialized website development.

### [Lead Generation Website](#)

Oct 2023 - Jan 2024

Built a responsive, conversion-focused B2C lead generation website for Rolling Millions Limited, integrating CRM and tracking tools to capture and manage high-quality ECO4 funding leads.

### [Organic Lead Generation via Social Media](#)

Aug 2023 - Sep 2023

Boosted DIGITIZE4LIFE LLC's online presence through fully organic strategies, using cold outreach and content creation to spark conversations and generate qualified leads.
